

# SWAGELOK® HOSE ADVISORY SERVICES

Engineered to take the pressure off you.

**Unplanned downtime.**  
**Repeated hose replacement.**  
**Loss of profits.**  
**Safety incidents.**

Failed hose assemblies require time and resources you just don't have. It's better to be prepared by taking a preventative approach. Let Swagelok Hose Advisory Services help. From reduced maintenance costs and extended hose life to increased safety.

*We are here to take the pressure off you.*

Swagelok

# Our Hose Advisory Services (HAS) can help you:

## Increase Safety

Keep your plant and processes safe, predictable and dependable with leak-tight products and best practices to reduce the risk of injuries and environmental damage.

## Reduce Plant Maintenance Costs

Prevent costs associated with continuously replacing the same problem hoses, unplanned downtime and wasted product.

## Drive Facility Efficiencies

Save time and resources while being able to focus on more pressing priorities.

## Master Hose Maintenance

Better predict when systems will need attention and understand what steps are necessary to keep everything running smoothly with a customised preventative maintenance schedule.

## Extend Hose Life

Save money through proper hose selection and installation, an optimally routed hose and end connection combination will have a longer life.

**End Connection Damage**

**Excessive Cover Damage**

**Kinked**

## What to expect from our Hose Advisory Services:

- A thorough discussion of your facility's goals
- A visual analysis of all hose systems
- A detailed, expert-reviewed report containing:
  - Overall findings
  - Prioritized improvement recommendations and suggestions with replacement option
  - Preventative maintenance schedules and hose inspection recommendations for your specific facility
- A hose register update with our survey findings or creation of a new database, depending on your facility's needs.

*Contact your local authorised Swagelok sales and service centre today to schedule a consultation.*
